DocSlurp Extraction Report

Title: Kreuzberg Extraction Evaluation v2.1

Author: DocSlurp Engineering Team
Subject: Parser quality benchmarking for multi-format documents
Keywords: extraction, kreuzberg, benchmark, tables, OCR, links
Created: 2025-10-01
Version: v2.1

Document Scope

This document serves as a metadata-rich test fixture. Parsers that expose document property extraction (title, author, subject, keywords, creation date, version) should surface these fields separately from body text content.

Revision History

v2.1	2025-10-01	Added metadata extraction fixtures
v2.0	2025-08-15	Extended kreuzberg eval coverage
v1.5	2025-06-01	Initial multi-extractor benchmarks
v1.0	2025-03-10	First release of fixture suite
